

Peel Reseal Lidding

To complement our industry-leading packaging designs for produce, Sonoco offers an advanced range of peel reseal lidding solutions, using labels or SmartSeal® integrated laminations.

FEATURES

- Customized perforation sizes and patterns
- Delivered in roll form
- Integrated high-quality graphics
- Strong seal bonds between the lidding film and tray
- Customized opening features: location of pull tab, size of opening
- Option for tamper evidence, anti-fog
- Peels open cleanly and allows for multiple reseals

BENEFITS

- Extended shelf life and optimal product quality
- Runs on existing equipment (tray sealers & FFS machines)
- Shelf appeal and consumer attractiveness
- Product protection and excellent stacking strength
- Consumer convenience
- Customizable solution for desired performance
- Excellent product containment, also offers portion control
