

SONOCO POUCHING

FAQS

DO YOU HAVE ANY SUSTAINABLE POUCHING OPTIONS?

Yes! Our [EnviroFlex™ PE](#) is made of a new monolayer, polyethylene material that's a sustainable flexible packaging option for a wide range of consumer products. EnviroFlex™PE is also eligible for store drop-off recycling!

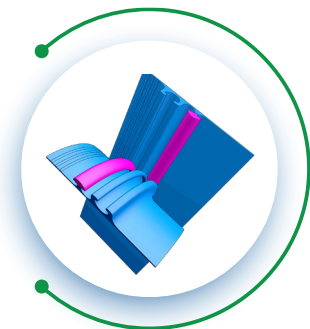

WHAT TYPES OF POUCHES CAN YOU PRODUCE?

We can manufacture a variety of types of pouches in different styles, sizes and color.*

WHAT ARE YOUR RESEAL OPTIONS?

Our pouch packaging is extremely flexible and is available with a number of resealing options.*

WHAT PRINT OPTIONS DO YOU HAVE?

We offer a variety of flexible films using the latest printing technology, including Rotogravure, Flexography and Advanced Flexography. Our rollstock printing capabilities means that we can print across the entire film, leaving no white space on the ends of your packaging.

WHAT ARE THE BENEFITS OF CONVERTING MY PACKAGING INTO A FLEXIBLE POUCH?

There are many benefits to converting your packaging into a flexible pouch. Our flexible pouches can be recycle-ready, give you more billboard space, take up less space in storage and are easier to transport.
